# Built Right. Built by York.

In order for a product to be labeled “Assembled In The USA” under the “Buy American Act”, the product must be more than 50% fabricated and assembled in the United States. Also, over 50% of the product’s materials, components and parts must be fabricated and assembled in the U.S. York’s material and fabrication content is between 75% and 97% made in the U.S., well above the minimum requirement. York is proudly ASSEMBLED IN THE USA.

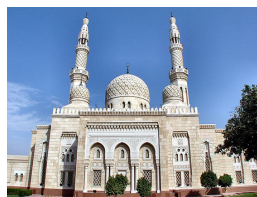

All York air conditioners and heat pumps carry the Good Housekeeping Seal of Approval. Since 1909, the Good Housekeeping Seal of Approval has been a symbol of quality and reliability. The seal is an indication that a product has been approved by the Good Housekeeping Research Institute and even guaranteed by Good Housekeeping magazine. So, in addition to York’s own assurances of dependability, you know the Good Housekeeping labs and researchers trust York.

The York YP9C Affinity modulating variable speed furnace was awarded with the Consumer Digest Best Buy Seal in the October 2010 Home Heating edition.

The YP9C furnace also won this prestigious award in 2008 and 2009. For the past 47 years, Best Buy ratings go to products Consumers Digest’s staff judges to be of the best quality for the most reasonable price. October 2010 Home Heating Edition Pg 34: “The YP9C series is the best furnace that’s on the market.”

York is the system of choice for such buildings as the Empire State Building, the White House, the Pentagon, the Denver International Airport, the Louvre, the Grand Mosque and the Sydney Opera House...just to name a few.
